True Blue is a premium blend of bluegrass for exceptional home lawns or high-end sports fields. Varieties selected for this blend are chosen for their dark green color, aggressive growth habit, and fine texture.

True Blue responds to average to high fertility rates, 2-6 lbs. of nitrogen per 1000 sq. ft. per season. It can be used successfully as an initial seeding or to overseed. It should be maintained at mowing heights of 2"-4."
